

Benner's Gardens

The #1 choice in deer fencing for over 20 years!

BENNER'S Fence is an extruded 100% PP bi-oriented net, that provides superior strength and durability. Highly resistant to UV rays and cold weather, Benner's provides the ideal solution for fencing.

BENNER'S Fence is primarily used for animal containment and deer exclusion. It is available with and without selvedge.

BENNER'S Fence is resistant to acid and alkaline and will not mold or rust.

TECHNICAL CHARACTERISTICS

Polymer	100% extruded PP, UV stabilized
Guaranteed minimum life	8 years
Weight per m ²	80 gr (+/- 5%)
Color	Black (other colors available upon request)
Carbon Black content	2%

DIMENSIONAL CHARACTERISTICS

Mesh size (MD x TD)	1.75" x 1.75" – 45mm x 45mm (+/-10%)
Height	4', 5', 6', 7.5' and 8' (+/-5%)
Roll Length	330' – 100m (+/-5%)
Packaging	Polyethylene bags (or boxes upon request)
Borders	Available with and without selvedge

**Recingreen L – 8' height (2,44m) is available only in connection with 7'; height nets)

MECHANICAL CHARACTERISTICS UNDER TRACTION

	TEST METHOD	TD	MD
Tensile strength	UNI EN ISO 10319	6.3 kN/m	5.8 kN/m
Yield point elongation	UNI EN ISO 10319	17.0%	13.3%

(*) = MD Machine Direction
 (***) = TD Transversal Direction

All data above has a +/- 7% of tolerance, due to various production cycles.

Technical data and commercial information shown above is based on best knowledge and on the most recent information available and may be subject to variations due to ongoing improvements and modifications of the product.
